

I have just been informed that my favorite radio station, K-LOVE may be in jeopardy if Low Power FM (LPFM) is given priority over FM translators. I sincerely hope this does not happen. K-LOVE brings family friendly music, without commercials, to our airwaves. They encourage positive things like voting (for any candidate) and often have community service info as well as good, clean programming. I shudder to think what would happen to our communities without this positive influence. I believe they perform a great public service by promoting participation in elections and other local and national programs, and by providing wholesome entertainment and family values. It would be criminal if programs with sexual/deviant messages (like Howard Stern) were to replace K-LOVE. Please don't let that happen. We love K-LOVE's encouraging music and messages of hope for America! Thank you, Lori March
